About Me

Software Developer and Product Design student passionate about building user-focused applications that are functional and easy to use. I enjoy turning ideas into scalable and efficient solutions through strong web development, object-oriented programming, and problem-solving skills. With a strong interest in the connection between technology and design, I aim to create products that work smoothly and provide a great user experience.

Education

International Institute of Information Technology Hyderabad

2025 – 2027

Master of Technology in Product Design CGPA: 8.75

Hyderabad, Telangana

University College of Engineering, Osmania University

2021 – 2025

Bachelor of Engineering in Computer Science and Engineering CGPA: 8.95

Hyderabad, Telangana

Sri Chaitanya Junior College

2019 – 2021

Telangana State Board of Intermediate Education Percentage: 97.4

Hyderabad, Telangana

Experience

OSI Digital

Project Associate Trainee (Internship) 2025

Hyderabad

- Completed a 3-month internship gaining hands-on experience in **Linux, SQL, PL/SQL, Java, and Spring Boot**, and applied these skills in a sample project.

Projects

QueryTime - Classroom Q&A Platform | *React, Redux, Node.js, Express, MongoDB*

- Developed a full-stack MERN application for classroom query management, featuring JWT-based authentication with role-based access control, RESTful APIs for classroom and question handling, and Redux Toolkit for centralized state management enabling teachers to create virtual classrooms with unique join codes and students to submit questions.

Student Management System | *Java, Spring Boot, MySQL*

- Developed a RESTful Student Management System using Spring Boot and MySQL, implementing CRUD operations with layered architecture, DTO pattern, validation, and proper exception handling.

RTI RAG Chatbot | *Python, Streamlit, LangChain, Chroma, Groq*

- Built a source-grounded chatbot for Indian Right to Information (RTI) queries using official government PDFs. Implemented document ingestion with section-aware chunking and MiniLM embeddings, persisted in ChromaDB, and served answers via Llama 3 model with history-aware query reformulation, MMR retrieval, and inline citations.

Skills

Languages: Python, Java, C

Development: Linux, Git, HTML, CSS, JavaScript, Reactjs, Nodejs, SQL, MongoDB

Core Concepts: Data Structures & Algorithms, OOP, DBMS, System Design

Machine Learning: Regression, Classification, Neural Networks

Soft Skills: Communication, Positive Attitude, Teamwork, Analytical Thinking

Certifications and Achievements

- Certified as **Bronze Smart Coder** by Smart Interviews for my skills in DSA and Problem-Solving.
- Finished at 1st place in **Code Garage test** conducted by Computer Society, IEEE SB OUCE.
- Secured a rank of **991** in TS-EAMCET 2021, **11268** in JEE Advanced 2021 and **9577** in GATE CS 2025.

Coding Profiles
